Docket No.: 2003P13008 Application No. 10/573,544 Prel. Amdt. dated April 9, 2007

Remarks:

The preliminary amendment is being filed in an effort to present an application in proper U.S. format and to present claims in proper U.S. claim idiom for examination.

The newly entered claims are fully supported in the original claims filed in the international application.

An early action on the merits is requested.

Respectfully submitted,

For Applicants
